COURSE POLICIES AND STANDARDS

The following class policies are established for the purpose of allowing students enrolled in leadership courses to establish practices that demonstrate mature and responsible behavior toward their work and each other.

Class and Event Attendance and Participation

Attendance and participation in class and group activities/meetings are very serious components of the class. Class attendance **is required**. More than three unexcused absences will result in a half grade reduction for each session missed. Student absences due to illness or University-required quarantine are excused absences and will not be penalized. Students who are sick should not attend class and will not be required to provide formal documentation from a health care provider. In the event of excused absences, the instructor will support students to maintain progress toward the course learning goals. Please communicate with me about any extended absence. In addition, unless there are good reasons, lateness will not be tolerated. Chronic lateness will be penalized.

Technology

Laptops are acceptable in class. ***Smartphones will be put away during class and not checked until after class.***

Awarding of Credit

To be successful in this course, a student should expect to devote 10-14 hours each week, including class time and time spent on course-related activities.

registrar.richmond.edu/services/policies/academic-credit.html

Late Papers

Late papers or assignments receive a half grade deduction per day.

Honor Code

Every piece of written work presented by individual students must have the honor pledge and the student's signature on it. The pledge is, ***"I pledge that I have neither given nor received unauthorized assistance***

during the completion of this work.”

Religious Observance Policy

Students needing to miss class because of religious observance should contact me within the first two weeks of the semester to discuss the absence. The University’s full religious observance policy may be found here (<https://registrar.richmond.edu/planning/religious-observance.html>.)

AI tools

The use of AI tools (such as ChatGPT) is permitted in this course with certain tasks and with attribution: You may use AI platforms to help prepare for assignments and projects (i.e. to help with brainstorming ideas). You may also use AI tools to help revise and edit your work (i.e. to help identify any flaws in reasoning, spot confusing or underdeveloped paragraphs, or to fix citations). Using any AI tools in any other manner outside of these specified tasks without explicit permission is a form of academic dishonesty and a violation of the UR Honor Code. If you are unsure about whether something may be plagiarism or academic dishonesty, please contact me to discuss the issue before the assignment is due.

If you choose to use AI tools for the tasks specified above, you must do so with caution and proper citation. Remember AI tools have flaws and their use is not a replacement for your own thinking and research. When submitting each assignment, you must clearly attribute what part(s) of the assignment was generated by the AI tool. All statements containing AI-generated text must appear in a different colored font and use an in-text parenthetical citation in APA style.

Addressing Microaggressions on Campus

Microaggressions are the everyday verbal, nonverbal, and environmental slights, snubs, or insults, whether intentional or unintentional, that communicate hostile, derogatory, or negative messages to target persons based solely upon their marginalized group membership.¹ Recent research has found that, when professors do not address microaggressions in class, microaggressions foster alienation of marginalized groups.² Furthermore, both students and faculty that are exposed to microaggressions more often are more likely to have depressive symptoms and negative affect (a negative view of the world).³ A comfortable and productive environment where meaningful learning happens can be collectively created through actions, words, or environmental cues that promote the inclusion and success of marginalized members, recognizing their embodied identity, validating their realities, resisting sexism, ableism, and racism.⁴

The University of Richmond is committed to building an inclusive community. To this end, the Student Center for Equity and Inclusion (SCEI) was created in 2021 and offers ongoing support and assistance for a diverse student body.⁵ With this in mind, as a community member at the University of Richmond, I pledge to address microaggressions in the classroom by holding myself, other students, and faculty accountable for what is said and being receptive to criticism when perpetuating these slights, snubs, or insults.
